

Flexo Folder-Gluer

71-00-10 Glue Station

Production flexibility.

vanSCO's Flexo Folder-Gluer station offers the end user a simple solution for increased production with quick changes, special brushes, and strategic design. The VanSCO® 71-00-10 Glue Station provides a versatile solution for a range of gluing application needs.

vanSCO's Flexo Folder-Gluer features:

Photo Sensor Bracket

Comes equipped with a fully adjustable photo sensor bracket with spring steel lead-in guide.

Tab Removal Brushes

Brass tab removal brushes reduce static electricity and removal of unwanted tabs.

Full Adjustments

Offers horizontal, vertical, and lateral adjustments with quick release locking handles.

Quick Changes

Valves and applicator heads can be easily removed from the bracket by loosening two nuts.

Adjustable Spring Steel Guides

For both top and bottom applications.

Versatile

The glue station can be moved easily from the left to the right side of the machine by simply mounting the components on the opposite side of the main station plate.
